

XRF Service, XRF Sales and XRF Support for RoHS, coating thickness, and more.

For over twenty years, Eastern Applied Research has been dedicated to providing cost-efficient and reliable XRF Service and Support for all models of XRF Analyzers.

XRF Calibration Standards Laboratory

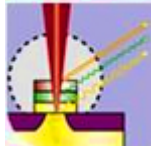

Accredited and NIST Traceable Standards...**not outsourced!**
Certification and Manufacturing

XRF Calibration Standards Lab

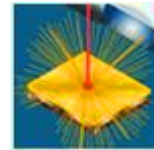

Accredited Calibration Standards Laboratory
~ recertification ~ manufacturing ~ sample testing ~

Eastern Applied Research offers a full service XRF Standards Laboratory that is accredited to ISO/IEC 17025:2005 in the field of calibration.

Our experienced laboratory staff can provide efficient manufacturing of new XRF standards, certification of current reference standards or sample testing services.

Our Laboratory Technicians and Application Specialists will work with you to meet your needs efficiently and effectively...and, unlike other companies, **Eastern Applied does not outsource** - talk directly with the person handling your order and receive the best pricing and service because of that.
